

I live in a rural part of West Texas that has few and sometimes no radio stations, depending on where I travel and I have come to depend on the news, music and information that I subscribe to with XM Radio. To think that the National Association of Broadcasters wants to curtail my ability to hear the news and weather just because NAB is loosing money in a free market is to me, unreasonable. They should find some other way to compete with XM that doesn't hurt or anger the rest of us. So please don't take, what I pay for, away from me or any of us out here in radio land.
